Surrender of the Brazilian parrot

ايران , اصفهان 32.6707877, 51.6650002

Brazilian parrot breeding pair

I want to make sure that the recipient is in Isfahan and I can visit the place where the bird is kept, and I make a condition in the house register that if the maintenance of my bird is not at the minimum standards, I will take my bird back.

I also buy healthy food for my birds and take it to give them

Most of the places where the birds are kept, it is important for me that they can preferably be free because they grew up in you
